Passenger and Power Company Will Put New Law Into Operation Wednesday.

VERY BROAD POWERS GIVEN

Conductors and Motormen May Make Arrests and Move Passengers at Will.

On Wednesday of this week the Virenta Passenger and Power Company will listitute a series of new regulations, ande possible by recent legislative enctment, conferring police powers, upon conductors and vesting in them the ight of designating the seats to be ocupled by passengers.

tight of designating the seats to be ocsupled by passengers.

The very liveliest interest attends the
shange, which is in effect a separation
of the races on the car's of Richmond.
That this separation will be followed
by effects beneficial to both whites and
blacks is not doubted by those who have
carefully studied the situation, and a
cordial co-operation on the part of the
citizens generally will result in the
smooth and successful operation of a law
that bade fair at first to cause trouble
of no mean proportions. In the different
churches to-day the colored pastors will
advise the congregations not only to submit calmly to the new rules, but to endeavor in every way to assist the company in administering the law A discordant element among the negroes is
beginning to appear, but it is earnextly
hoped that the more conservative judyment of the pastors will prevail.

The company believes there is no reason why, with the sympathetic co-operation of all its patrons, of what color soever, the revolutionary new laws may
not be quietly put into being in a fashion that will ultimately prove the change
to be of utmost benefit to all. No discrimination will be shown, such being
in fact, forbidden by the very law itself.

Explicit Instructions.

The appended explicit instructions, in themselves an exceedingly interesting notice to the public, have been issued by the company to its conductors:

This company has determined to avail test of the authority given by a recent fiate law to separate white and colored passengers, and to set apart and designate in each car certain portions of the ar or certain seats for white passengers and certain other portions or certain eats for colored passengers.

The same law makes each conductor and motorman a special policeman while in the cars of the company, or on its ight of way, and gives to each conductor and motorman the full power of a coliceman, to enforce this separation of he taces, and to preserve order on the cars.

The conductors have the right to rerassengers to change their seats is often as may be necessary for the symfort and convenience of the passenters and for the complete and satisfactory separation of the races.

All With the Conductor. All With the Conductor.

The successful carrying out of this law dannds largely upon the judgment and codiess of the conductors, whose duty it is benforce it. The law requires there still be no difference or discrimination in the quality and convenience of the acommodations provided for the two ries, and good policy requires that all passengers, white and colored alike, shall be treated courteously and considerately. t treated courteously and considerately Inductors and motormen are which they als law with large powers, which they ust use wisely, discreetly and with as nductors and motormen are clothed

If passengers refuse to move their cats or their positions in the car in acordance with the reasonable, proper and ourteous demand of the conductor, or fre guilty of any other serious disorder, they should be arrested by the conductor or elected from the car.

In the event of any resistance by the passenger to the authority of the conductor, he should first call upon the motorian for assistance, as the motorman as airc in such matters the authority of policeman.

In the event of an arrest by the conductor, the passenger so arrested must be kept on the car' in custody until a policeman can be met or found, and should then be turned over to the policeman, to be carried to the station house. Conductors will hand to the policeman taking such prisoner from them a card, with the conductor's name and badge number, the offense for which passenger was arrested (as, for instance, disorder on car; expectorating on car; refusing to move when required so to do, etc., as the case may be), the names and addresses of witnesses, and, if possible, the name of the passenger, though this is not necessary.

Conductors making such arrests will report the facts to the division office at the end of that trip, with the names of such witnesses as have been obtained, and must invariably be present at the Police Court the following morning.

Then and Now.

Then and Now.

Richmond's mayorality contest is getting to be altogether too tame. If the people of that goodly city only had A. M. Kelley back from Egypt 10 do the honors on State occasions, it wouldn't make very much difference who did the rest of work as commander-in-chief of the city forces. How they did miss just such a man the day on which the keys of the city were delivered into the keeping of the late President McKinley!—Farmville Herald.

Race Pride, Indeed.

Race Pride, Indeed.

The negro teamsters in Richmond refused to work with a white man. That's right: stick to your colors and refuse to ride on the same cars with him, or eat at the same table; or stop at the same hotel. And when this has been done, mark the first white man who protests. The Herald would encourage in the negro people degree of race pride.—Farmville Herald.

Peruna occupies a unique position in medical science, it is the only internal systemic cutarrh remedy known to the medical profession to-day. Catarrh, as every one will admit, is the cause of one-half the diseases which affilied mankind. Catarrh and catarrhal diseases afflict one-half the people of the United States. Make Themselves Apparent.

Women are especially liable to pelvic catarrh—female weakness, as it is commonly called. Especially in the first few weeks of warm weather do the disagrenche symptoms of female weakness make themselves apparent. In crisp, cold weather chronic sufferers with pelvic catarrh do not feel so persistently the debilitating effects of the drain upon the system, but at the approach of summer, with its lassitude and tired feelings, the sufferer with pelvic catarrh feels the need of a strengthening tonic.

Peruna is not only the best spring tonic for such cases, but if persisted in will effect a complete cure. Write for a copy of "Health and Beauty," written especially for women by Dr. Hartman.
